

Our intent at Julia Lee Moore is to provide many opportunities for our parents to be involved in their child's education. We understand how important parents are in the educational success of their child and want to partner with our parents to make success possible for all our students. In order to foster this partnership, we have developed the Julia Lee Moore Elementary Parental Engagement Plan. This plan covers many ways we strive to involve our parents as partners.

One of the things addressed in our plan is the ways we will communicate with our parents and the ways parents can communicate with us. Our goal is to have regular, consistent communication with our parents so they are aware of "happenings" at school and how they can be a part of things.

We also want parents to know how they can be involved in making a difference in their child's education. Parents are informed what their child will be learning and ways they will be assessed, including module and state testing information. Parents are encouraged to share any questions or concerns they have about their child's education.

Through a variety of ways parents are encouraged to volunteer at Julia Lee Moore Elementary. Opportunities are provided for parents who want to spend time at the school during the school day, help at special events, or even help from home. Volunteer opportunities are available for those who have one day to contribute as well as for those who have many.

Our plan also includes ways parents can participate in decisions concerning the district and school that affect their child and family. Parents can make recommendations, collaborate with administrators and serve on committees as part of the decision making process for our school.

Julia Lee Moore Elementary has an active PTO (Parent-Teacher Organization) that welcomes all parents. The PTO works closely with the school to provide help and support to our students and staff.

The Julia Lee Moore Elementary Parent Facilitator, Shannon Riner, coordinates the school's parent involvement plan and is available to assist parent with any questions or needs. You may reach her at 501-450-4830 or by email at riners@conwayschools.net.

Teachers, administrators and other staff members meet with parents at the two scheduled Parent-Teacher Conference Nights. They are also available for additional conferences with any parents as needed.

Helping parents support their children at home is important to us here at Julia Lee Moore Elementary. We provide instruction to parents about developmentally appropriate learning activities and supply materials, games, DVD's and other resources for parents to use at home. Our goal is to give parents the information, skills and materials they need to help their child.

If any parent has questions, suggestions or needs assistance we encourage them to contact us at Julia Lee Moore Elementary. We are willing and happy to help!
